Free Trade Organizations in Thirteen States--The Proceedings of the Meeting.

### THE FREE TRADERS

Of America in Session at Chicago.

By Telegram to The Sentinel.

CHICAGO, Nov. 11.—The national conference of free traders and revenue reformers met this morning, with some 200 delegates in attendance. The president, Hon. David A. Wells, presided. The report and addresses of R. B. Sawyer, the honorary secretary, was read. Mr. Sawyer stated there were state organizations in behalf of the revenue reform in thirteen states and local organizations in many other states. The most of these are in relation with the American Free Trade League, which is now organized as a national association. He urged upon the free traders, the necessity of planning for the great campaign, the first step towards which is raising a fund of \$20,000 which will be needed this and the next year in view of congressional elections of 1886. One-third of this sum has already been pledged. An address on the "Tariff in Its Relations to the Farmers," was then read by J. Q. Smith, of Ohio, which ended the morning session.

Frank Hurd, Henry Watterson, J. Sterling Morton and others will deliver addresses to-night.

The News From Other Shores.

By Cable to The Sentinel.

LONDON, Nov. 11.—The Peninsular and Oriental Steam Navigation company's steamer, Indus, from Calcutta for London, has been totally wrecked on a reef off Moeltivoe, Ceylon. Her passengers and mails were saved.

CONSTANTINOPLE, Nov. 11.—M. Neli-off, the Russian ambassador, has been ordered by his government to press the demand of Russia before the conference for an immediate disarming of Serbia, Greece, and Bulgaria and the disposition of Prince Alexander, ruler of Bulgaria.

LONDON, November 10.—At a cabinet council held at the residence of the first lord of the treasury to-day, the reply of King Theobald to England's ultimatum having been received, the cabinet declared war against Burmah, and a formal declaration of war with the queen's seal, has been issued. The Burmese minister at Paris has been notified that all foreign subjects remaining in Burmah are required to come into the British lines. The British army of invasion is advancing 15,000 strong, the greater portion being on steamers. The first military operations will be the bombardment by the iron-clad flotilla of the Indian fleet, of the cities along the Irrawaddy river.

The respective governments of Roumelia and Bulgaria have still to ratify conclusions. The British opposition to the removal of Alexander was overcome, by the offer of the vacant throne to Prince Henry of Battenburg, Alexander's younger brother, the husband of Princess Beatrice and a son-in-law of Queen Victoria. Germany objects to Prince Henry and might consent to the substitution of Prince Louis, Alexander's elder brother, now in the British navy and the latter is regarded as the probable choice of the Roumelians.

### A Union of Industries.

By Telegram to The Sentinel.

NEW ORLEANS, La., November 10.—One hundred thousand people witnessed the magnificent display here to-day and 50,000 thronged the grounds and buildings of the North, and South American exposition to celebrate the opening of this great industrial movement. A feature in the exercises of the day, was the appearance of thirty state and territorial commissioners of the states and territories of the United States and the representatives of the majority of the South American countries with commissioners from transatlantic nations. The central object in every direction of this exposition is the extension of trade between the north and south.

In the exercises which were most enthusiastically received, the North and South American speakers were emphatic in their reference to the importance of increasing our trade on the business basis of the exposition. Director General Glenn, President McConico and Commissioner General Pitman for the south, and Commissioner Feirall, of Iowa, for the state commissioners, dwelt extensively upon these points. Governor McEnery, Mayor Guillott and Major E. A. Burke made excellent speeches. The space in the vast building, is all taken but some of the exhibits are slow in becoming installed. Within a few days the exhibits will all be in order and will form one of the really great exhibitions of the age.

The Indiana state exhibit will occupy more than double the space it did last year and be equal to any made by the other states and will be of incalculable value to us as advertising our state's interest.

NEW ORLEANS, November 10.—The procession disembarked at the exposition grounds amid the booming of cannon, from the Mexican gun-boat "Independencia" and salutes from batteries on the shore. The cortege marched with bands playing into the music hall. This vast hall, accommodating fully 10,000 persons, was thronged. The exercises opened with prayer by Bishop N. Gallaher, of Louisiana. Director General Glenn in a few words formally tendered to President McConico, the grounds and buildings. President McConico in reply paid a glowing tribute to the ability, skill and fidelity of that officer, J. R. S. Pittkin accepted the grounds and building on behalf of the commissioners. Commissioner Herbert S. Terrall, of Iowa, delivered an address on behalf of the commissioners, in which he discussed the advantages of the exposition. Governor McEnery made a brief address of welcome and was followed by Major Guillott, who extended a welcome to the strangers visiting the city. An address was then made by Senor Natas Romero, the Mexican Minister. He said he had been asked by President Diaz to represent him at the opening. Senor Romero described the benefits that would accrue from the development of commercial relations among the American countries, especially between Mexico and the United States. Rev. S. H. Worley spoke on the behalf of the universal peace union. The closing address of the program was by Dr. J. D. Newman, the representative of the colored race. Major E. A. Burke, who was director-general of the World's Industrial Exposition, was called upon and made some remarks on the benefits which had resulted from that exposition and the advantages expected to accrue from the new enterprise. This speech concluded the day's exercises.

The number of people visiting the grounds during the day is estimated at 50,000.

### The Law is Constitutional.

By Telegram to The Sentinel.

ATCHISON, Kansas, November 10.—Judge David Martin rendered a decision to-day in the whisky injunction cases recently brought before him, by Attorney General Bradford, against five prominent saloon keepers of this city, under the nuisance clause of the prohibitory act. The defendants had

filed a motion to transfer the cases to the United States circuit court, for trial, alleging that several important federal questions were raised in the proceedings; among them, that the law confining the sale of intoxicating liquors, for excepted purposes, to druggists, was in the nature of class legislation, and therefore in contravention of the federal constitution. The motion was argued last week and the court took the matter under advisement, until to-day, when he announced his decision, refusing the motion and holding the cases here for trial. The opinion exhausts every point raised in the argument of the attorneys and sustains the validity of the prohibitory law in every particular.

### Unsettled.

By Telegram to The Sentinel.

GALVESTON, November 10.—The committee of arbitration for the settlement of the recent strike inaugurated in this city, held a continuous session to-day. Testimony is being reduced to writing. The situation continues grave. The colored laborers in the city are awaiting result of the arbitrating committee's labors, with undisguised interest. Attorney-General King is in the city investigating the situation, by order of Governor Ireland. Work everywhere in the city is progressing and the freight blockade along the railroad lines, is being rapidly decreased. Matters are quiet at Houston and work on the wharves of the Direct Navigation company was resumed this morning.

### Engineer Killed.

By Telegram to The Sentinel.

LOUISVILLE, Nov. 11.—Thomas Crackle, an engineer on the Jeffersonville, Madison and Indianapolis railroad, was run over and killed yesterday at Jeffersonville.

### BRIEF TELEGRAMS.

PHILADELPHIA, November 10.—The Record this morning says: The agreement between the Baltimore & Ohio railroad company and Reading railroad company, for an interchange of traffic is ready for the signatures, which in all probability, will be attached to-day. The agreement does not include the Jersey Central. The Baltimore & Ohio company will go to Bound-brook over the north Pennsylvania and Bound-brook railroads. Then according to the statement of a high official of the Baltimore & Ohio, if its business is refused by the Jersey Central, it will get into Jersey City by an arrangement already perfected, to meet just such an emergency.

SEATTLE, Washington Ter., November 10.—Last night a meeting was held, attended by law-abiding citizens, generally, and an organization, three hundred strong, was effected, for the purpose of preserving the peace, whenever the troops are withdrawn.

NEW ORLEANS, La., November 10.—The inaugural ceremonies of the North, South and Central American exposition are progressing smoothly. Weather clear and pleasant. The commercial exchanges are closed and all other business is in a measure suspended.

Harrison's sureties, against the Harrison's Encaustic Tile Works' company and others. The property involved is the tile works, including buildings, ground and machinery, the Parker block, the Stolte farm and a block on West Washington street. The decree of foreclosure and sale was entered by Judge Woods, in the amount of \$84,927.50.

NEW YORK, November 10.—A Montreal special says Mr. Fitzpatrick, Riel's counsel, returned from England to-day and left at once for Ottawa. He says Riel's fate is still in the balance, but that it will be decided to-morrow. A reprieve until Monday was granted at the request of high ecclesiastical authority, on the ground that the man was not in a proper frame of mind to meet his fate, being under the impression that his life would be spared. Mr. Fitzpatrick interviewed the secretary of state for the colonies previous to his departure and was informed that the imperial cabinet would not interfere.

SALT LAKE CITY, November 10.—Ten of the twelve Mormon apostles sign a notice in this evening's "Deseret News," (the organ of the Mormon church) stating that Albert Carrington, one of the twelve apostles, after a full and patient trial, by the authorities of the church, has been excommunicated for adultery and lascivious conduct. No particulars are given.

QUEBEC, November 10.—A dispatch from Anticosti states that a sailor of the steamer Brooklyn, from Liverpool, for this port, reports that a vessel went ashore near Health point, Sunday morning. It is stated that no one had been on board the steamer since the accident occurred. The weather was very rough and two compartments of the vessel were full of water then. She struck in a bad place and her position is dangerous.

### The Wrecked Algoma.

By Telegram to The Sentinel.

OWENS SOUND, Ont., Nov. 11.—As far as can be learned the passenger list and

crew of the Algoma comprised 120 persons. The Canadian Pacific officials have almost an absolute monopoly of all news received and are very reluctant to disclose the facts. It is believed, however, that a large number of passengers were taken on at Sault Ste Marie. General Manager Beatty, of the Canadian Pacific, will say nothing definite as to the number lost, while other officials freely state that fully one hundred have gone down with the vessel. The latest list of the saved makes a total of fifteen.

### Killed by a Runaway Horse.

### The Country's Crops.

By Telegram to The Sentinel.

WASHINGTON, D. C. November 10.—The present crop, according to the department of agriculture, November report of corn, is the first full average in rate for yield since 1880, which was the last of a series of six full crops. Twenty-six to twenty-eight bushels per acre. The present crop, grown on an area of fifty three to fifty-four million acres, is slightly above an average for the period of ten years of sixteen and one-fourth bushels per year. The highest rate of yield is thirty-six and one-half bushels in Nebraska and Ohio. The three corn growing states, which produce four-tenths of the entire crop, Illinois, Iowa and Missouri, each average several bushels per acre less than in the census year. Illinois thirty-one, Iowa thirty-two, Missouri thirty. The Southern States makes an average yield. Quality of corn very good in the east and in the south medium and somewhat depreciated on the northern border from Michigan to Dakota.

Potato crop is smaller than that of 1884 in consequence of injury from rot which has reduced the New York crop nearly one-third. There is much complaint of rot in Wisconsin and Iowa and in some counties of Michigan, Illinois and Minnesota.

Reported yield of hay per acre averages 1 1/2 tons, and indicates a crop of over 47,000,000 tons, nearly as large as that of last year.

Buckwheat crop will be large; average yield will exceed over 14 bushels per acre.

### Murdered His Mother.

By Telegram to The Sentinel.

FR. WORTH, Texas, November 10.—Advices from Tanning, in Clay county, give details of the deliberate murder, last Saturday, of Mrs. Sanford, wife of E. C. Sanford, a planter, by her son Valentine Sanford, who is scarcely fourteen years of age. The boy committed the deed during his father's absence from home, by firing five shots at his mother, while she was working in a field. He afterwards assisted the father in the search for his wife. Some neighbors found the mother's body on Sunday evening and the boy then confessed the crime, saying he had also intended to kill his father, then sell the plantation and become a brigand. The youthful murderer exhibits no remorse for his deed.

### LOCAL LINES.

T. V. Powderly, general master workman of the Knights of Labor, is an Irishman by birth, but has lived since childhood in this country. He is a machinist by trade, but looks a college professor of the city type—a pale, handsome face, high forehead, rather dark hair, studious look, a heavy black mustache, middle stature, well-knit frame, refined look and a low voice make up the exterior of a strong man, with a brave spirit, radical in thought, but conservative in methods and action. He is trusted and deserves to be.

A recent address by Mr. Moody to the students of Northfield consisted of these two words: "Consecrate and Concentrate," and he added a motto that he saw in England:

"Do all the good you can,  
To all the people you can,  
In all the ways you can,  
As long as ever you can."

One bottle of Athlophoros relieved my wife who has rheumatism for over four years from all pain, gave her a good appetite and in fact made a strong woman out of a feeble one. I can recommend it. A. R. Touley, Fort Wayne, Ind.

WEDNESDAY, NOV. 11, 1885.

## NOT OFTEN

Is Such a Rare Opportunity as This Presented—Three Grand Entertainments at the Temple for \$1.00.

The R. R. Y. M. C. A. is already recognized in this community as one of the most deserving of our benefactions and an instrumentality that is accomplishing great good in our midst. But it must be remembered that the success of such an organization depends largely upon the material aid it receives from the general public. The maintaining of a reading room, library, bath-rooms and other luxuries and conveniences that belong to an institution of this character, is attended with considerable expense, and while some of our benevolent people have contributed handsomely, the association still finds it necessary to raise some money to meet current expenses. To accomplish this end, a series of three entertainments have been agreed upon, and the services of quite a number of our most gifted people have been secured for the same.

### THE FIRST ENTERTAINMENT

will be a grand vocal and instrumental concert, by the Haydn quartet, assisted by Prof. Otto Schmidt, Miss Clara Kenower and Messrs. Charles McCulloch and John Mohr. That this concert will be of a very high order of merit, the names are alone sufficient guarantee. The Haydn quartet is an organization of which our people are justly proud, and their fine numbers are always welcomed on the program of any entertainment. The fame and popularity of this quartet is no longer confined to Fort Wayne and vicinity, but their services are sought far and wide. An engagement is offered them at the Southern Chautauqua of Florida, next winter, and another at Indianapolis during holiday week. Their singing is pronounced equal to that of the best professional organizations. Professor Schmidt is an artist whose talents are too well appreciated in this community to need laudation, and Miss Kenower and Messrs. McCulloch and Mohr will add very greatly to the pleasure of the evening.

### THE SECOND ENTERTAINMENT

will consist of a lecture by Mr. T. P. Keator, formerly editor of the Gazette, on "Strange and Curious Things I Have Seen." This lecture is spoken of by those who have heard it, as interesting and quite eloquent.

### THE THIRD ENTERTAINMENT

will introduce a number of our most popular home artists. Among the attractions of this number of the series, will be Reineke's superb orchestra, the new Mozart Quartet, Miss Emma Falk, Miss Lucia M. Vail, Mr. H. B. Saynor, Mr. Adolph Schulte, Mr. A. T. Lukens, Mr. H. B. Woolsey, Mr. F. E. Riblet, Mr. W. F. Heath and others.

These entertainments are to be given at the Masonic Temple during November and December, and tickets for the season will be sold at the very low price of \$1.00 each; or three tickets for any one number of the series at the same price. It is proposed in these entertainments to give more than value received for the money invested, and those who patronize the course will not only have the pleasure of attending a most delightful series, but will also have the consciousness of having helped a worthy cause. —Daily News.

### THE FIRST KEEN TWINGE.

As the season advances, the pains and aches by which rheumatism makes itself known, are experienced after every exposure. It is not claimed that Hood's Sarsaparilla is a specific for rheumatism—we doubt if there is, or can be, such a remedy. But the thousands benefited by Hood's Sarsaparilla, warrant us in urging others who suffer from rheumatism to take it before the first keen twinge.

## Echoes From the Wrecked Steamer.

By Telegraph to The Sentinel.

PORT ARTHUR, November 10.—At 4:15 a. m., Saturday, there was a violent snow storm. The sea was running mountains high and the Algonia was tossed about like a cork. Suddenly, while the ship was being brought about, she struck the rocks known as Greenstone point, on Isle Royal, about fifty miles from Port Arthur, and one mile from passage Island light house, which has been abandoned since the first of the month.

After striking the first time, the boat forged ahead; being driven by the wind. A second shock occurred shortly after the first. The vessel struck a reef violently at fore-side of boiler and she at once commenced to leaking. Most of the passengers and number of the crew were in bed at the time, but were rudely awakened by the shock of the boat against the reef. The water dashed in on the boat putting out the fire and washing the electric lights over. The screams of the women and children were heard above the fury of the storm. The crew hurried forward and attempted to launch boats, but of little avail. In less than twenty minutes the entire forward part of the boat was carried away with the cargo and human freight. Several persons clung to the rigging and to a life line the captain had stretched along the boat, but were soon swept away by the roaring waves. The stern of the life boat was steadily pushed upon the rock and those who were not too much exhausted with fatigue and benumbed with cold, crept to the after steering gear and sought its welcome shelter. Less than an hour after striking, all was over and but fifteen out of over fifty were saved.

The survivors remained from the time of the disaster (4 o'clock Saturday morning) until Monday morning at 10 o'clock, exposed to the weather with but little food and clothing, nearly everything having been washed overboard, when they were sighted by some fishermen, who came to the rescue, taking the survivors from the doomed vessel and placing them on Isle Royal, where a fire was kindled for their comfort. The fishermen went out and intercepted the Athabasca, which was coming in about ten miles away. Captain Foote, of the vessel at once put about and took the sufferers on board, and they were subsequently brought here.

The dead bodies of Frost and Emerson were brought in on the Athabasca. The following are the names of the lost so far as known: Wm. Higgins, wholesale merchant; Winnipeg; Mrs. Dudgeon and children, Owen Sound; E. Frost, wife and child, of Owen Sound; Douglas Charles, Prince Edward county, Ontario; Louis Zimmerman, late of Port Arthur; G. Emerson, Ramsgate, England; Purser McKenzie and William Milligan, of Medford, Ontario; Thos. Snelling, waiter, Jno Scott; T. Bates and Balentina, deck hands; Mrs. Taylor, Steward McIntyre (supposed to be lost), Fred Knight, Thos. McKenney Henderson, H. McClinton Waters.

Great things have ever hinged on trifles. The first family difficulty on record was caused by an apple core; the last we heard of was the negligence of a father to keep up the supply of Dr. Bull's Cough Syrup when all hands had a cold.

An editor in Dakota makes affidavit that he has seen a spear of growing grass thirty-four feet long.

REV. H. B. ERRELL, of Pavilion, N. Y., says of Gilmore's Aromatic Wine: "I believe it to be a most desirable remedy to be placed in every family."

WILLIS L. CULVER, of Pavilion, N. Y., says that Gilmore's Magnetic Elixir cured him of a long standing throat and lung trouble.

LADIES, Use Gilmore's Aromatic Wines for nervousness and sleeplessness. CONFINED TO THE BED FOUR MONTHS, and almost blind, and cured by one box of Gilmore's Nerve and Lung TROUBLES? Gilmore's Magnetic Elixir.

For sale by Dreier & Bro's. and G. H. Gumpfer.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. lead&wly.

The latest railroad invention is the arrangement of a telescoping frame of tubes running from buffer to buffer on cars. If a collision takes place, these tubes gradually increase their resistance to the end of the train; the force of the blow is soon expended and there are no splintered cars nor no cars off the track. Experimentally a train with this equipment attached was started down a steep grade and struck the stop block without a particle of injury, the train coming gradually to a stop.

The city editor of THE SENTINEL acknowledges an invitation to the military ball to be given at the Princess rink November 25. The frontal inscription is "Audaces Fortuna Juvat" or "Fortune favors the bold and brave." The supper is styled a "symposium" and so on runs the gay affair.

**A THIEF CAUGHT.**  
Barney Schmidt, a Farm Hand, Steals a Suit of Clothes and Gun.

A telephone message from the French brewery this morning notified Sheriff Nelson that three farmers were struggling with a thief on the highway near the malt works. Deputy Sheriff Schrader hurried to the scene and soon had Barney Schmidt in irons. Barney had worked as a farm hand for John H. Cook, who resides some five miles out on the Lima road. J. W. Castleman is also employed there, and taking his leave Barney carried away with him a suit of clothes and a gun belonging to Castleman. The theft was discovered and Castleman overtook Schmidt on the highway and made him strip off the stolen garments. Happily Schmidt had other clothes to substitute and he was presentable when he arrived at the sheriff's office. Schmidt has been in this country but five years and formerly lived at Defiance. He was held to await grand jury investigation.

### THEY KISSED. A Pathetic Scene at the Police Court.

Last night Officer Humbrecht found one Will Hanna wandering about searching for his wife, Dora Hanna. The police found the woman and Flora Moore in a room on Barr street with two traveling men, who gave the names of Jacob Mason and James Mann. The men gave bail but the women were locked up. At police court the girls acknowledged they had sinned and the mayor imposed a fine. Officer Humbrecht told the story and related that Mrs. Hanna, when arrested said: "I left my husband in bed, dead drunk and asleep. I did not think the d—d fool would wake up." Hearing these words Dora wept and her husband, a crude looking fellow, stepped up to the mayor and said: "I forgive her, your honor" and putting his arms about his erring wife he kissed her square on the lips that still were somewhat ruby with the bloom of youth. "Let her go," said Hanna as big tears rolled down his cheek and Dora hid her face on her husband's breast. The mayor would not yield and Dora was escorted to the jail, crying as though her heart would break. The husband offered to serve his wife's sentence and followed the woman he loves until the huge iron door of the jail was slammed in his face.

### Rev. Henry Ward Beecher.

Brooklyn's famous divine lectured at the Temple last evening to a very intelligent assembly. Mayor Muhler nicely introduced him and Mr. Beecher spoke for an hour on the "Reign of the Common People." He traced the development of mankind and government down to the present day, showing the influences that lead to liberalize state affairs and predicted that all nations were drifting to the time when the common people would be partners in the affairs of government. He pictured the influence that education, religion, politics and climate had in developing the brain, and acknowledged good in all the agencies which tend to instruct, ennoble and make mankind understand the God of love, truth and justice. Mr. Beecher spoke for an hour and no review can do the lecture justice. People who missed it can credit themselves with an irreparable loss. Mr. Beecher is a little too ponderous and unweildy. He does not display his characteristic life on the rostrum; but he is brainy. He referred to his first visit to Fort Wayne, some thirty-five years ago, when he established the Second Presbyterian church. He complimented the growth of the city, and placed it among the great industrial centers of the west. Mr. Beecher gets \$300 a night for his lectures. He is a poor man and gives all the money he earns out in charity. The only legacy he will leave his family is \$100,000 insurance he holds on his life.

Mrs. Nellie Kidd, the lady mesmerist, who appears at the Academy of Music to-night, arrived in the city this afternoon. Mrs. Kidd has just closed a successful engagement at Kalamazoo, Mich. She is a wonderful performer in the art of mesmerism and will be assisted during her stay here by Prof. J. W. Cadwell, one of the most experienced and best mesmerists in the country.

The Dyspeptic's Refuge.  
"I am thirty-five years old," writes Mr. Charles H. Watts, of West Somer, Putnam county, N. Y., "and had suffered from dyspepsia for fifteen years. The current treatment did me no good. Listlessly and without hope I gave Parker's Tonic a trial. I can give the result in three words: it cured me." It will cure you.

### A Chat with Charley Hoffman.

Auditor Charley Hoffman, of the Fort Wayne, Cincinnati and Louisville road, way here yesterday, shaking hands with his many friends," says the Cincinnati Enquirer. Charley is an old Cincinnati boy, and was at one time connected with the Cincinnati, Hamilton and Dayton road, with headquarters here.

"How's business?" said Charley, in reply to an inquiry. "Why, the freight traffic on the Fort Wayne, Cincinnati and Louisville road is booming, and we are pressed for cars to haul the freight offered. Passenger business is not so good with us; but, then, it is fair to middling. I am here on business, though, and not to talk railroads. So, ta, ta."

### Manager Mordaunt's Trouble.

Francis Mordaunt, manager of the Adah Richmond company, was arraigned in the police court at Cincinnati yesterday, charged with grand larceny in the alleged stealing of \$300 from Mrs. Lottie Beaumont. Mordaunt, through his attorney, Jack Hart, requested an immediate hearing; but Prosecutor Schwartz asked for a delay until Thursday, which was granted.

## NOT OFTEN

Is Such a Rare Opportunity as This Presented—Three Grand Entertainments at the Temple for \$1.00.

The R. R. Y. M. C. A. is already recognized in this community as one of the most deserving of our benefactions and an instrumentality that is accomplishing great good in our midst. But it must be remembered that the success of such an organization depends largely upon the material aid it receives from the general public. The maintaining of a reading room, library, bath-rooms and other luxuries and conveniences that belong to an institution of this character, is attended with considerable expense, and while some of our benevolent people have contributed handsomely, the association still finds it necessary to raise some money to meet current expenses. To accomplish this end, a series of three entertainments have been agreed upon, and the services of quite a number of our most gifted people have been secured for the same.

### THE FIRST ENTERTAINMENT

will be a grand vocal and instrumental concert, by the Haydn quartet, assisted by Prof. Otto Schmidt, Miss Clara Kenower and Messrs. McCulloch and John Mohr. That this concert will be of a very high order of merit, the names are ample sufficient guarantee. The Haydn quartet is an organization of which our people are justly proud, and their fine numbers are always welcomed on the program of any entertainment. The fame and popularity of this quartet is no longer confined to Fort Wayne and vicinity, but their services are sought far and wide. An engagement is offered them at the Southern Chautauque of Florida, next winter, and another at Indianapolis during holiday week. Their singing is pronounced equal to that of the best professional organizations. Professor Schmidt is an artist whose talents are too well appreciated in this community to need laudation, and Miss Kenower and Messrs. McCulloch and Mohr will add very greatly to the pleasure of the evening.

### THE SECOND ENTERTAINMENT

will consist of a lecture by Mr. T. P. Keator, formerly editor of the Gazette, on "Strange and Curious Things I Have Seen." This lecture is spoken of by those who have heard it, as interesting and quite eloquent.

### THE THIRD ENTERTAINMENT

will introduce a number of our most popular home artists. Among the attractions of this number of series, will be Reinecke's superb orchestra, the new Mozart Quartet, Miss Emma Falk, Miss Lucia M. Vail, Mr. H. B. Saynor, Mr. Adolph Shulte, Mr. A. T. Lukous, Mr. H. B. Woodley, Mr. F. E. Riblet, Mr. W. F. Heath and others.

These entertainments are to be given at the Masonic Temple during November and December, and tickets for the season will be sold at the very low price of \$1.00 each; or three tickets for any one number of the series at the same price. It is proposed in these entertainments to give more than value received for the money invested, and those who patronize the course will not only have the pleasure of attending a most delightful series, but will also have the consciousness of having helped a worthy cause.—Daily News.

### THE FIRST KEEN PRINCE.

As the season advances, the pains and aches by which rheumatism makes itself known, are experienced after every exposure. It is not claimed that Hood's Sarsaparilla is a specific for rheumatism—we doubt if there is, or can be, such a remedy. But the thousands benefited by Hood's Sarsaparilla, warrant us in urging others who suffer from rheumatism to take it before the first keen twinges.

# Echoes From the Wrecked Steamer.

By Telegraph to THE SENTINEL.

PORT ARTHUR, November 10.—At 4:15 a. m., Saturday, there was a violent snow storm. The sea was running mountains high and the Alcoma was tossed about like a cork. Suddenly, while the ship was being brought about, she struck the rocks known as Greenstone point, on Isle Royal, about fifty miles from Port Arthur, and one mile from passenger island light house, which has been abandoned since the first of the month.

After striking the first time, the boat forged ahead, being driven by the wind. A second shock occurred shortly after the first. The vessel they struck a reef violently at fore-side of boiler and she at once commenced to leaking. Most of the passengers and a number of the crew were in bed at the time, but were rudely awakened by the shock of the boat against the reef. The water dashed in on the deck, putting out the fire and washing the electric lights over. The screams of the women and children were heard above the fury of the storm. The crew hurried forward and attempted to launch boats, but of little avail. In less than twenty minutes the entire forward part of the boat was carried away with the cargo and human freight. Several persons clung to the rigging and to a life-line the captain had stretched along the boat, but were soon swept away by the roaring waves. The stern of the life boat was steadily pushed upon the rock and those who were not too much exhausted with fatigue and benumbed with cold, except to the after-sterge and sought its welcome shelter. Less than an hour after striking, all was over and but fifteen out of over fifty were saved.

The survivors remained from the time of the disaster (4 o'clock Saturday morning) until Monday morning at 10 o'clock, exposed to the weather with but little food and clothing, nearly everything having been washed overboard, when they were sighted by some fishermen, who came to the rescue, taking the survivors from the doomed vessel and placing them on Isle Royal, where a fire was kindled for their comfort. The fishermen went out and intercepted the Athabasca, which was coming in about ten miles away. Captain Foote, of the vessel at once put about and took the sufferers on board, and they were subsequently brought here.

The dead bodies of Frost and Emerson were brought in on the Athabasca. The following are the names of the lost so far as known: Win. Higgins, wholesale merchant; Winnipeg; Mrs. Dugdon and children, Owen Sound; E. Frost, wife and child, of Owen Sound; Douglas Charles, Prince Edward county, Ontario; Louis Zimmerman, late of Port Arthur; G. Emerson, Ramsgate, England; Purser McKenzie and William Milligan, of Medford, Ontario; Thos. Snelling, waiter, Jno Scott, T. Bates and Valentine, deck hands; Mrs. Taylor, Steward McIntyre (supposed to be lost), Fred Knight, Thos. McKenney Henderson, H. McClinton Waters.

Great things have ever hinged on trifles. The first family difficulty on record was caused by an apple core; the last we heard of was the negligence of a father to keep up the supply of Dr. Bull's Cough Syrup when all hands had a cold.

An editor in Dakota makes affidavit that he has seen a spear of growing grass thirty-four foot long.

REV. H. B. ERELLA, of Pavilion, N. Y., says of Gilmore's Aromatic Wine: "I believe it to be a most desirable remedy to be placed in every family."

WILLIS L. CULVER, of Pavilion, N. Y., says that Gilmore's Magnetic Elixir cured him of a long-standing throat and lung trouble.

LADIES, Use Gilmore's Aromatic Wines for nervousness and sleeplessness. CONFINED TO THE BED FOUR MONTHS, and almost blind, and cured by one box of Gilmore's Aromatic Wine. WHAT WILL CURE THROAT AND LUNG TROUBLES? Gilmore's Magnetic Elixir.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. Twenty-five cents a bottle. Locally.

# Catarrh Can be Cured

That exceedingly disagreeable and very prevalent disease, catarrh, is caused by secretions in the blood. Hood's Sarsaparilla, by its powerful purifying and vitalizing action upon the blood, speedily removes the cause, and thus effects a radical and permanent cure of catarrh. Those who suffer from its varied symptoms—uncomfortable flow from the nose, offensive breath, ringing and bursting noises in the ears, swelling of the soft parts of the throat, nervous prostration, etc.—should take Hood's Sarsaparilla and be cured.

Serious consequences are liable to ensue if catarrh is not attended to in season. The disease frequently destroys the sense of smell and often develops into bronchitis or pulmonary consumption. Undoubtedly many cases of consumption originate in catarrh. Hood's Sarsaparilla cures catarrh and has even effected remarkable cures of consumption itself, in its early stages. A book containing statements of many cures by Hood's Sarsaparilla, will be sent free to all who send address to C. I. Hood & Co., Lowell, Mass.

### The Best Medicine

"I have suffered with catarrh in my head for years, and paid out hundreds of dollars for medicines, but have heretofore received only temporary relief. I began to take Hood's Sarsaparilla and now my catarrh is nearly cured, the weakness of my body is all gone, my appetite is good—in fact, I feel like another person. Hood's Sarsaparilla is the best medicine I have ever taken." MISS A. CUNNINGHAM, Providence, R. I.

### Catarrh and Impure Blood

"Hood's Sarsaparilla has helped me more for catarrh and impure blood than anything else I ever used." A. BALL, Syracuse, N. Y.

"I suffered three years with catarrh, and my general health was poor in consequence. When I took Hood's Sarsaparilla I found I had the right remedy. The catarrh is yielding, as Hood's Sarsaparilla is cleaning my blood, and the general tone of my system is improving." FRANK WASHBURN, Rochester, N. Y.

## WHITE SEAL BURNING OIL

"THE OLD FOLKS AT HOME"

The New York board of health estimates that 400,000 lives have been destroyed by the excessive quantities of petroleum. If every household would adopt the White Seal oil for family use, none of these unfortunate accidents would occur.

WHITE SEAL BURNING OIL has none of the defects usually found in common oil. It cannot be exploded, does not char the wick, will not smoke, contains no offensive odor, and prevents the breaking of chimneys.

WHITE SEAL BURNING OIL is a rich oil for illuminating purposes. It is as bright in color as pure spring water. It gives a strong steady light, and burns much longer than common oil.

If the White Seal Burning Oil is not sold in your vicinity, send your order direct to us for a barrel or a case containing two neat five gallon cans.

The regularly elected constables find their occupation gone as the justices of the peace give their business to Hugh Stewart, who holds a position as deputy to Henry Rebling. Mr. Rebling no longer acts, but there is a "dry" between him and Stewart. This sort of thing needs exposure as the regular officials are in want and must resign their positions if the matter does not change.

The latest railroad invention is the arrangement of a telescoping frame of tubes running from buffer to buffer cars. If a collision takes place, these tubes gradually increase their resistance to the end of the train; the force of the blow is absorbed and there are no splintered cars or no extra cost of the track. Experimentally a train with this equipment attached was started down a steep grade and struck the stop block without a particle of injury, the train coming gradually to a stop.

A THIEF CAUGHT.

Barney Schmidt, a Farm Hand, Steals a Suit of Clothes and Gun.

A telephone message from the French brewery this morning notified Sheriff Nelson that three farmers were struggling with a thief on the highway near the mill works. Deputy Sheriff Schrader hurried to the scene and soon had Barney Schmidt in irons. Barney had worked as a farm hand for John H. Cook, who resides some five miles out on the Lima road. J. W. Castleman roads-occupied there, and taking his leave Barney carried away with him a suit of clothes and a gun belonging to Castleman. The theft was discovered and Castleman overtook Schmidt on the highway and made him strip off the stolen garments. Happily Schmidt had other clothes to substitute and he was presentable when he arrived at the sheriff's office. Schmidt has been in this country but five years and formerly lived at Defiance. He was held to await grand jury investigation.

THEY KISSED.

A Pathetic Scene at the Police Court.

Last night Officer Humbrecht found one Will Hanna wandering about searching for his wife, Dora Hanna. The police found the woman and Flora Moore in a room on Barrat street with two traveling men, who gave the names of Jacob Mason and James Mann. The men gave bail but the woman were locked up. At police court the girls acknowledged they had sinned and the mayor imposed a fine. Officer Humbrecht told the story and related that Mrs. Hanna, when arrested said: "I left my husband in bed, dead drunk and asleep. I did not think the d—d fool would wake up." Hearing these words Dora wept and her husband, a crude looking fellow, stepped up to the mayor and said: "I forgive her, your honor" and putting his arms about his erring wife he kissed her square on the lips that still were somewhat ruby with the bloom of youth. "Let her go," said Hanna as big tears rolled down his cheek and Dora hid her face on her husband's breast. The mayor would not yield and Dora was escorted to the jail, crying as though her heart would break. The husband offered to serve his wife's sentence and followed the woman he loves until the huge iron door of the jail was slammed in his face.

Rev. Henry Ward Beecher.

Brooklyn's famous divine lectured at the Temple last evening to a very intelligent assembly. Mayor Muhler nicely introduced him and Mr. Beecher spoke for an hour on the "Reign of the Common People." He traced the development of mankind and government down to the present day, showing the influences that lead to liberalize state affairs and predicted that all nations were drifting to the time when the common people would be partners in the affairs of government. He pictured the influence that education, religion, politics and climate had in developing the brain, and acknowledged good in all the agencies which tend to instruct, ennoble and make mankind understand the God of love, truth and justice. Mr. Beecher spoke for an hour and no review can do the lecture justice. People who missed it can credit themselves with an irreparable loss. Mr. Beecher is a little too ponderous and unweildy. He does not display his characteristic life on the rostrum; but he is brainy. He referred to his first visit to Fort Wayne, some thirty-five years ago, when he established the Second Presbyterian church. He complimented the growth of the city, and placed it among the great industrial centers of the west. Mr. Beecher gets \$300 a night for his lectures. He is a poor man and gives all the money he earns out in charity. The only legacy he will leave his family is \$100,000 insurance he holds on his life.

Mrs. Nellie Kidd, the lady mesmerist, who appears at the Academy of Music to-night, arrived in the city this afternoon. Mrs. Kidd has just closed a successful engagement at Kalamazoo, Mich. A Chat with Charley Hoffman.

Auditor Charley Hoffman, of the Fort Wayne, Cincinnati and Louisville road, way here yesterday, shaking hands with his many friends," says the Cincinnati Enquirer. Charley is an old Cincinnati boy, and was at one time connected with the Cincinnati, Hamilton and Dayton road, with headquarters here.

"How's business?" said Charley, in reply to an inquiry. "Why, the freight traffic on the Fort Wayne, Cincinnati and Louisville road is booming, and we are pressed for cars to haul the freight offered. Passenger business is not so good with us; but, then, it is fair to middling. I am here on business, though, and not to talk railroads. So, ta, ta."
